

SOLARSHEAT 1500GS 2 Pak

YOUR SOLAR HOME INC. is a renewable energy solutions company which manufactures and develops solar air collection heating systems for residential and industrial use.

Our products are economical, environmentally friendly and can be used for air heating in a variety of different climates and applications.

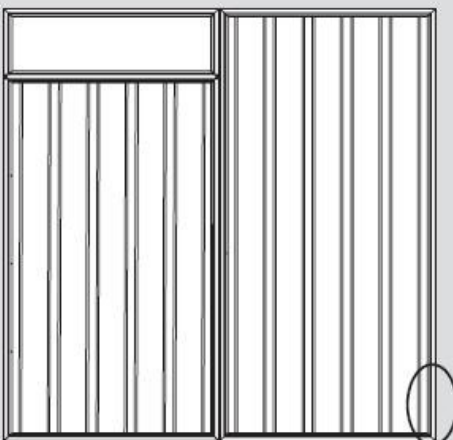

Product Description

The SolarSheat 1500G 2 Pak is a self-powered dual collector solar air heating system. It can provide supplemental heat in a large room up to 1500 ft² (139 m²) in the daytime. It installs in a few hours on a south facing wall or roof.† The SolarSheat 1500G 2 Pak drives solar heated air through a wall or through a cathedral ceiling. For longer duct runs, solar powered booster fans are available. The SolarSheat 1500G 2 Pak is designed to heat larger areas, up to 1500 ft² (139 m²), and/or rooms with a cathedral ceiling during the daytime. The 2 Pak will produce a heat rise of up to 60° F (33°C) during sunny conditions.* A duct kit, including a digital thermostat, is included with the SolarSheat 2 Pak. An optional fresh air kit is available for Solar HRV integration. Roof mounting kits and flashing are additional.

* depending on heat loss and solar gain.
